

A Word concerning Jihad and Islam

Dear Prayer Warriors,

The Lord spoke to me last night that a spirit of Jihad has been loosed among the Islamic world. This is a very violent spirit because it will particularly stir up those who are already wounded and hurt either by perception or reality by the western world in particular.

This principality will being to hit soft targets in particular such as churches and even Christians. While we are not to fear, we are to be on guard.

Let's pray for a great moving of the Holy Spirit among the leaders of these Islamic movements in particular. Iran must be a focus of this intercession as the Prince of Persia is trying to manifest through that nation and is working to make the fundamentalist leader a strong man through whom he can function. We must indeed bind the strong man and fast and pray.

Focus fasting and prayer for the believers in these nations is critical at this time.

Also, we must not grow weary in being watchmen on the wall for Israel. Put a hedge of protection around that nation and the Jewish people as well as the congregations of Israel.

The EU will become a target and will find that this jihad spirit will turn itself against them as well. You will see this on the news as the radical Islamics start to burn the EU flag side by side with that of the United States. The Church in Europe and around the world needs to be vigilant at this time to turn the enemy back from their midst.

The Lord wants to cause a fresh awakening of prayer groups across the face of the earth and an admonition not to be weary in well doing. This season will turn into one of a powerful harvest of Muslum souls, both Arab and non-Arab, if we stand, watch, and pray.
